Objective

Motivated Computer Science student with strong foundation in Python, Data Structures, and Machine Learning. Passionate about building intelligent solutions and eager to contribute to AI projects.

Education

B.Tech – Computer Science & Engineering (2023–2027) Sri Venkateswara College of Engineering and Technology CGPA: 8.57

Intermediate (MPC) – 2023 Narayana Junior College, Tirupati Percentage: 93%

SSC – 2021 Narayana EM High School, Tirupati GPA: 94.82%

Technical Skills

Programming: Python, C, C++, SQL

Machine Learning: Linear Regression, Supervised Learning Basics

Libraries & Tools: Pandas, NumPy, Scikit-learn, Matplotlib

PROJECTS

Student Performance Prediction (Machine Learning)

- Built a model to predict student performance based on study hours
- Used Python with Pandas and NumPy for data handling
- Applied Linear Regression using Scikit-learn
- Learned basics of data analysis and prediction

Password Generator (Python)

- Created a password generator using Python
- Generated strong passwords using random characters
- Included letters, numbers, and special symbols
- Improved coding and logical thinking skills

ACHIEVEMENTS

- Participated in Agnite Hackathon and worked on team-based problem solving
- Developed a basic IoT mini project using sensors
- Gave technical presentations on academic topics
- Actively participated in college technical activities

Area Of Interest

- Data Analysis
- Machine Learning
- Python Development
- Problem Solving
