Objective

Motivated Computer Science Engineering student skilled in Python, SQL, JavaScript, and web development. Interested in Artificial Intelligence and software development with hands-on project experience.

Education

B.Tech in Computer Science Engineering	2023–2027
Sri Venkateswara College of Engineering and Technology	CGPA: 8.57
Intermediate (MPC)	2021–2023
Narayana Junior College, Tirupati	93.2%
SSC	2020–2021
Narayana EM High School, Tirupati	94.82%

Skills

Programming Languages	Python, JavaScript, SQL
Web Technologies	HTML, CSS, JSON, Flask
Databases	MySQL, SQLite
Tools	GitHub, VS Code, Overleaf, Tinkercad
Concepts	OOPs, DBMS, NLP Basics, IoT Basics

Projects

AI Based Resume Analyzer

Developed an AI-powered Resume Analyzer using Python, Flask, and NLP concepts. The system analyzes uploaded resumes and provides ATS-based feedback, skill-based interview questions, company matching percentage, and personalized strengths and weaknesses analysis for interview preparation and resume improvement.

Iris Flower Classification System

Developed a Machine Learning-based Iris Flower Classification System using Python and Scikit-learn to classify flower species based on sepal and petal measurements. The project includes data preprocessing, exploratory data analysis, model training, performance comparison of multiple ML algorithms, and dynamic prediction based on user input.

Experience

Training and Placement (TAP) Volunteer

Assisted the Training and Placement cell in coordinating placement activities, student communication, and event management.

Certifications

- NPTEL Certification in Natural Language Processing (NLP)
- IBM SkillsBuild Summer Internship Program in Web Development with CSRBOX

Achievements

- Participated in Agnite Hackathon and technical problem-solving activities.
- Worked on IoT simulations and circuit design using Tinkercad.
