SUMMARY

Motivated Computer Science Engineering student with skills in Python, SQL, JavaScript, and web development. Interested in Artificial Intelligence and software development with hands-on project experience

EDUCATION

B.Tech CSE, Sri Venkateswara College of Engineering and Technology	2023–2027
CGPA: 8.57	
Intermediate (MPC), Narayana Junior College	2021–2023
Percentage: 93.2%	
SSC, Narayana EM High School	2020–2021
Percentage: 94.82%	

SKILLS

Programming Languages	Python, JavaScript, SQL
Web Technologies	HTML, CSS, JSON, Flask
Databases	MySQL, SQLite
Tools and Platforms	GitHub, VS Code, Overleaf, Tinkercad
Concepts	OOPs, DBMS, NLP Basics, IoT Basics

PROJECTS

AI Based Resume Analyzer Academic Project
Developed an AI-powered Resume Analyzer using Python, Flask, NLP, and Machine Learning concepts. The application analyzes uploaded resumes, provides ATS-based feedback, and helps users improve resume quality for better job opportunities.

IoT Simulation using Tinkercad Academic Project
Worked on IoT-based simulations and virtual circuit design using Tinkercad. Implemented basic automation and electronic component testing for academic learning.

EXPERIENCE

Training and Placement (TAP) Volunteer Present
Assisted the Training and Placement cell in coordinating placement activities, communicating with students, and supporting event management activities. Developed teamwork, communication, and leadership skills through volunteer responsibilities.

CERTIFICATIONS

- NPTEL Certification in Natural Language Processing (NLP)

- IBM SkillsBuild Summer Internship Program on Web Development in collaboration with CSRBOX

ACHIEVEMENTS

- Active Training and Placement (TAP) Volunteer in college activities
- Participated in Agnite Hackathon and technical problem-solving activities
- Recognized as Department Topper for academic excellence
- Worked on IoT simulations and circuit design using Tinkercad
